Experience

Associate Software Engineer, [Highradius Technology](#) **Hyderabad, India** 07/2022 - present

- Developed reusable stateful dynamic UI components using ReactJS, Redux, JavaScript, NodeJs.
- Spearheaded frontend development efforts, crafting intuitive user interfaces and ensuring seamless user experiences. Managed state and data flow effectively, collaborating closely with cross-functional teams to deliver interactive web applications.
- Designed and implemented the RestAPI for the UI screen where users can perform the CRUD functionally.
- Work independently and proactively to deliver production-ready code with minimal guidance.

Software Trainee, [Highradius Technology](#) **Hyderabad, India** 08/2021 - 06/2022

- Served as full-stack developer, responsible for developing web applications using different web frameworks and libraries
- Developed Employee Dashboard using ReactJS, Redux.
- Integrated the Redux framework to scale and maintain the application better while handling large amounts of data.

Summer Internship, [Highradius Technology](#) **Hyderabad, India** 06/2021 - 06/2021

- Developed the Employee Management Dynamic UI which is having multiple functionalities and users can perform the CRUD Operations.

Skills

- **Front-End:** HTML, CSS, JavaScript, ES6, ReactJs, Redux, Material UI, TypeScript(Basic)
- **Back-End:** NodeJs, ExpressJs, Java, Redis, Docker, Microservices
- **Miscellaneous:** Git, Data Structure (DSA), REST API, MySQL, MongoDB, DBMS, Azure Cosmos DB, VS code
- **Soft Skills:** Event Management, Public Speaking , Time Management

Projects

CodeFlick

- A microservice API for a LeetCode-style web app, enabling seamless CRUD operations to enhance user programming practice.
- This Microservice API is structured according to a customized MVC architecture.
- **Technology Used :** JavaScript, Node.js, Express, MongoDB, Redis
- GitHub Repository: <https://github.com/allaboutraj/codeflick>

The Meal App

- Developed a fully responsive User Interface leveraging the ThemealDB API for data fetching and operations.
- **Technology Used :** HTML, CSS, JavaScript
- GitHub Repository: <https://github.com/allaboutraj/Meal-app>

TodoAPI Backend

- Developed a RESTful API for task management, enabling CRUD operations efficiently.
- **Technology Used :** JavaScript, Node.js, Express, MongoDB
- GitHub Repository: <https://github.com/allaboutraj/ToDoAPI>

Portfolio Website

- Developed a sleek, responsive portfolio website using React.js, showcasing professional experience and projects.
- **Technology Used :** JavaScript, React, Express, React Router

Certifications

- Complete Interview Preparation With Doubt Assistance by GFG (Aug. 2022) - [Certificate](#)

Education

Lovely Professional University, Phagwara
B.Tech, Computer Science Engineering

2018 – 2022
CGPA - 8.11
